

469138 DOT DMS FMCSA - 2007-28055 - 638

HOW TO START.

First I say NO to the Mexicans trucking over here. This government has already let to many illegals over to our country. They work for little money driving down our wages. Then they send the money back to Mexico. Their wages aren't even spent here in the United States.

When you allow these trucks up into the United States they will haul freight for less than what we can. What do you think that will do to the truckers who haul to and from the border. How many jobs will be lost to Mexican drivers. We have already let to many company's move to Mexico for cheap labor. Let's STOP it now.

I say NO to the Mexican trucks in the United States. The drugs will be flowing even more if we let them up here. We have no way of knowing if these drivers are even who they say they are. Let alone if they have all the requirements to drive safely in the United States. You already gave to many CDL's out to people who can't even speak English. Isn't that a law that you be able to speak English to hold a CDL in the United States.

All to often I see drivers who can't speak English or even able to back up a truck into a dock. Now that's not safety. It has to STOP.

NO again to Mexican trucks in the United States.
